

Let's Work Together to Keep Our Community Safe

Dear Bradford Families,

Listed below are a few ways you can help keep our in-person community safe.

- Check in with your child each morning for signs of illness. If your child has a temperature of 100.4 degrees or higher, they should not go to school.
- Make sure your child does not have a sore throat or other signs of illness, like a cough, diarrhea, severe headache, vomiting, or body aches.
- If your child has had close contact with a COVID-19 case, they should not go to school. Follow guidance on what to do when someone has known exposure.
- Identify your school point person(s) to contact if your child gets sick:

Mrs. Turner-Bush, Parent Liaison / Health Ambassador
soniaturnerbush@choiceschools.com
248-351-0000 EXT 1116

- Call or Email our Health Ambassador immediately if you or anyone in your household has become ill or has tested positive for COVID-19
- Be familiar with local COVID-19 testing sites in the event you or your child develops symptoms. These may include sites with free testing available.
- Review and practice proper hand hygiene at home, especially before and after eating, sneezing, coughing, and adjusting a mask.
- Make sure your information is current at school, including emergency contacts and individuals authorized to pick up your child(ren) from school. If that list includes anyone who is at increased risk for severe illness from COVID-19, consider identifying an alternate person.
- Be familiar with your school's plan for how they will communicate with families when a positive case or exposure to someone with COVID-19 is identified and ensure student privacy is upheld.
- Plan for possible school closures or periods of quarantine. If transmission is increasing in your community or if multiple children or staff test positive for

COVID-19, the school building might close. Similarly, if a close contact of your child (within or outside of school) tests positive for COVID-19, your child may need to stay home for a 2-week quarantine period. You may need to consider the feasibility of teleworking, taking leave from work, or identifying someone who can supervise your child in the event of school building closures or quarantine.

- Plan for transportation: If your child rides a bus, plan for your child to wear a mask on the bus and talk to your child about the importance of following bus rules and any spaced seating rules.
